GOGRO SYSTEMS

Versatile automatic irrigation for all kinds of growing! GoGro can be configured to suit any grow, for ornamental or production purposes. From a single plant to a large commercial grow, GoGro can do it all. Be sure to keep some in stock!

- No power, pumps or plumbing needed – gravity fed from a reservoir
- Economical water use – plants take up only what they need
- Fully automatic – top up your reservoir and let GoGro do the work
- Available as boxed kits, separate components, or user-specified systems
