## BlueLab

### BlueLab's iconic hand-held meters cover all the plant health fundamentals.

Measure conductivity, temperature, and pH to manage nutrient levels and ensure that plants have access to the food they need. Always keep this respected range available!

- Robust and reliable for long lasting value
- Fully waterproof - not just water resistant. Will float if dropped in the reservoir.
- Calibration:
  - Simple two-point process for pH Pen
  - Optional for Conductivity Pen – easy push-button method
  - Not required for Truncheon Meters
- Automatic temperature compensation for accurate readings everywhere
- Auto-off function to extend battery life
