¹ Always pay close attention to plants and find out what their requirements are

Essentials PLUS SILICON

Strengthens plant cell walls producing stronger, bigger plants with thicker roots, better resistance to drought stress and attack by insects and pathogens.

Essentials PLUS GREEN UP

A foliar feed targeting calcium and nitrogen where most needed for vigorous growth and to assist the production of chlorophyll.

Essentials PLUS OXY

Increases the oxygen content of the nutrient solution and maintains system cleanliness.

Essentials PLUS CALMAG

A calcium and magnesium supplement with added iron and nitrogen to improve plant performance and aid healthier growth and colour.

Essentials PLUS FULVIC

Contains fulvic acids to enhance uptake of nutrients and to maximise their effect. Apply as a foliar spray or add to your nutrient solution.

Essentials PLUS PK 13/14

A highly concentrated PK additive for the week of peak flowering to produce exceptional flowers and fruits.

Essentials PLUS NO STRESS

Improves plant health and aids stress tolerance, providing support in conditions of heat, drought, cold or pests.

Essentials PLUS FLUSH

To clear nutrients from plants at the end of flowering or growing to ensure good taste and texture in the crop.
